## 32-5969: Mouse Anti Human Herstatin(Clone:P7H3BV.)

| Clonality: | Monoclonal |
| :--- | :--- |
| Clone Name : | P7H3BV. |
| Application : | ELISA,WB |
| Gene : | ERBB2 |
| Gene ID : | 2064 |
| Uniprot ID : | P04626 |
| Format : | Purified |
|  | NEU,NGL,HER2,TKR1,HER-2,c-erb B2,HER-2/neu,Receptor tyrosine-protein kinase erbB-2,EC |
| Alternative Name : | 2.7 .10 .1, p185erbB2,C-erbB-2,NEU proto-oncogene,Tyrosine kinase-type cell surface receptor |
|  | HER2,MLN 19,CD340 antigen. |
| Isotype : | IgG2b. |

Immunogen Information :
Anti-human ErbB2 mAb, is derived from mice immunized with the recombinant human ErbB2 (43.4 kDa, 397 a.a. and one extra N-terminal Methionin) purified from E. coli.

## Description

HER-2/neu (erbB-2) encodes an $185-\mathrm{kDa}$ orphan receptor tyrosine kinase that is constitutively active as a dimer and displays potent oncogenic activity when overexpressed. Herstatin, as the product of alternative HER-2 transcript, retains intron 8. The herstatin mRNA is expressed in normal human fetal kidney and liver, but is at reduced levels relative to p185HER-2 mRNA in carcinoma cells that contain an amplified HER-2 gene. Herstatin appears to be an inhibitor of p185HER-2, because it disrupts dimers, reduces tyrosine phosphorylation of p185, and inhibits the anchorage-independent growth of transformed cells that overexpress HER-2.

## Product Info

## Amount :

Content :

## Storage condition :

$15 \mu \mathrm{~g}$
The ERBB2 antibody is lyophilized in 0.05 M phosphate buffer, $0.1 \mathrm{M} \mathrm{NaCl}, \mathrm{pH} 7.2$. AZIDE FREE.
The lyophilized antibody remains stable and fully active when stored at $-20^{\circ} \mathrm{C}$. It is recommended to aliquot the product after reconstitution to avoid repeated freezing/thawing cycles and store frozen at $-80^{\circ} \mathrm{C}$. The Reconstituted antibody can be stored at $4^{\circ} \mathrm{C}$ for a limited period of time; it does not show decline in activity after one week at $4^{\circ} \mathrm{C}$.

## Application Note

ELISA, Western blotting.
