

32-6063: Mouse Anti Chlamydia LPS(Clone:NYRChlam LPS.)

Clonality :	Monoclonal
Clone Name :	NYRChlam LPS.
Format :	Purified
Isotype :	mouse IgG2b.
Immunogen Information :	Purified Chlamydia LPS.

Description

Chlamydia is a common term for infection with any bacterium belonging to the phylum Chlamydiae. This term derives from the name of the bacterial genus Chlamydia in the family Chlamydiaceae, order Chlamydiales, class and phylum Chlamydiae. There are two genera in Chlamydiaceae: Chlamydia and Chlamydophila. The genus Chlamydia includes three species: C. trachomatis, C. muridarum, and C. suis.

Product Info

Amount :	1 mg
Purification :	Ion exchange column.
Content :	1mg/ml in PBS (after reconstitution).
Storage condition :	In lyophilized form, for long periods, store at 4°C in a dry environment. After reconstitution, if not intended for use within a month, aliquot and store at -20°C.
