

32-6120: Mouse Anti Human Immature Colon Carcinoma Transcript 1(Clone: PAT1E9A)

Clonality :	Monoclonal
Clone Name :	PAT1E9A
Application :	ELISA, WB
Gene :	ICT1
Gene ID :	3396
Uniprot ID :	Q14197
Format :	Purified
Alternative Name :	DS-1, DS1, Peptidyl-tRNA hydrolase ICT1 mitochondrial, Digestion subtraction 1, Immature colon carcinoma transcript 1 protein, ICT1.
Isotype :	Mouse IgG1 heavy chain and Kappa light chain.
Immunogen Information :	Anti-human ICT1 mAb, clone PAT1E9A, is derived from hybridization of mouse F0 myeloma cells with spleen cells from BALB/c mice immunized with a recombinant human ICT1 protein 30-206 amino acids purified from E. coli.

Description

Immature Colon Carcinoma Transcript 1 (ICT1) functions as a codon-independent translation release factor that has lost all stop codon specificity and leads the termination of translation in mitochondrion in case of abortive elongation. The mature colon epithelium has 3 differentiated cell types which arise from a multipotent stem cell. ICT1 is involved in the hydrolysis of peptidyl-tRNAs which have been prematurely terminated and consequently in the recycling of stalled mitochondrial ribosomes. Digression from the normal maturation pathway by neoplastic transformation is assumed to originate in stem cells or their early descendants.

Product Info

Amount :	20 µg
Purification :	ICT1 antibody was purified from mouse ascitic fluids by protein-A affinity chromatography.
Content :	1mg/ml containing PBS, pH-7.4, 10% Glycerol and 0.02% Sodium Azide.
Storage condition :	For periods up to 1 month store at 4°C, for longer periods of time, store at -20°C. Prevent freeze thaw cycles.

Application Note

The antibody has been tested by ELISA, Western blot analysis to assure specificity and reactivity. Since application varies, however, each investigation should be titrated by the reagent to obtain optimal results. Recommended starting dilution is 1:1000.
