

32-3189: ANKRD54 Recombinant Protein

Alternative Name : LIAR,Lyn-interacting ankyrin repeat protein.

Description

Source : Escherichia Coli. ANKRD54 Human Recombinant produced in E.Coli is a single, non-glycosylated polypeptide chain containing 323 amino acids (1-300 a.a.) and having a molecular mass of 34.9kDa. ANKRD54 is fused to a 23 amino acid His-tag at N-terminus & purified by proprietary chromatographic techniques. Ankyrin Repeat Domain 54 (ANKRD54), which is also known as LIAR contains 4 ANK repeats. ANKRD54 plays a vital role in regulating intracellular signaling events related with erythroid terminal differentiation. ANKRD54 interacts with LYN through ankyrin repeat region and the SH3-domain in an activation-independent status of LYN. ANKRD54 creates a multiprotein complex with LYN and HCLS1.

Product Info

Amount :	10 µg
Purification :	Greater than 85.0% as determined by SDS-PAGE.
Content :	ANKRD54 protein solution (0.5mg/ml) contains 20mM Tris-HCl buffer, (pH 8.0), 0.15M NaCl, 20% glycerol and 1mM DTT.
Storage condition :	Store at 4°C if entire vial will be used within 2-4 weeks. Store, frozen at -20°C for longer periods of time. For long term storage it is recommended to add a carrier protein (0.1% HSA or BSA). Avoid multiple freeze-thaw cycles.
