

32-5047: Recombinant Human Transcription Elongation Factor A (SII)-Like 3

Alternative Name : Transcription elongation factor A (SII)-like 3, TCEA-like protein 3, MGC15737.

Description

Source : E.coli. TCEAL3 Human Recombinant produced in E. coli is a single polypeptide chain containing 224 amino acids (1-200) and having a molecular mass of 25.0 kDa. TCEAL3 is fused to a 24 amino acid His-tag at N-terminus & purified by proprietary chromatographic techniques. TCEAL3 belongs to the transcription elongation factor A (SII)-like (TCEAL) gene family. TCEAL family members hold TFA domains and operate as nuclear phosphoproteins which control transcription in a promoter context-dependent fashion. Various family members are situated in the X chromosome.

Product Info

Amount :	10 µg
Purification :	Greater than 85% as determined by SDS-PAGE.
Content :	The TCEAL3 solution (0.5mg/ml) contains 20mM Tris-HCl buffer (pH 8.0) and 10% glycerol.
Storage condition :	Store at 4°C if entire vial will be used within 2-4 weeks. Store, frozen at -20°C for longer periods of time. For long term storage it is recommended to add a carrier protein (0.1% HSA or BSA). Avoid multiple freeze-thaw cycles.
