

36-1668: Monoclonal Antibody to Calgranulin B (Macrophage Marker)(Clone : CAGB/426)

Clonality :	Monoclonal
Clone Name :	CAGB/426
Application :	IHC
Reactivity :	Human
Gene :	S100A9
Gene ID :	6280
Uniprot ID :	P06702
Format :	Purified
Alternative Name :	S100A9,CAGB,CFAG,MRP14
Isotype :	Mouse IgM, kappa
Immunogen Information :	Recombinant human CAGB protein

Description

Recognizes a 12-14kDa doublet of Calgranulin A/B (also known as S100A8/A9 or MRP-8/14); expressed by granulocytes, monocytes and by tissue macrophages. The protein encoded by this gene is a member of the S100 family of proteins containing 2 EF-hand calcium-binding motifs. S100 proteins are localized in the cytoplasm and/or nucleus of a wide range of cells, and involved in the regulation of a number of cellular processes such as cell cycle progression and differentiation. Altered expression of this protein is associated with the disease cystic fibrosis. This MAb reacts with neutrophils, monocytes, macrophages, and squamous mucosal epithelia and has been shown as an important marker for identifying macrophages in tissue sections.

Product Info

Amount :	100 µg
Purification :	Affinity Chromatography
Content :	100 µg in 500 µl PBS containing 0.05% BSA and 0.05% sodium azide. Sodium azide is highly toxic.
Storage condition :	Store the antibody at 4°C; stable for 6 months. For long-term storage; store at -20°C. Avoid repeated freeze and thaw cycles.

Application Note

Immunohistochemistry (Formalin-fixed. Not suitable for frozen tissues.) (1-2ug/ml for 30 minutes at RT)(Staining of formalin-fixed tissues requires heating tissue sections in 10mM Tris with 1mM EDTA, pH 9.0, for 45 min at 95°C followed by cooling at RT for 20 minutes);

Formalin-fixed, paraffin-embedded human Tonsil stained with Calgranulin B Monoclonal Antibody (CAGB/426)
