

## 32-1625: NRN1 Recombinant Protein

**Alternative Name :** Neuritin 1, NRN1, NRN, dJ380B8.2, Neuritin.

### Description

Source : Escherichia Coli. Recombinant Human NRN1 produced in E.coli cells is a non-glycosylated, homodimeric protein containing 2x88 amino acid chains and having a molecular mass of 19.4kDa. The NRN1 is purified by proprietary chromatographic techniques. Neuritin (NRN1) is a neurotrophic factor, which is expressed in response to induction of neuronal activity by NGF, BDNF, NT3 and other neural stimulators. NRN1 is expressed principally in postmitotic-differentiating neurons of the developing nervous system and in neuronal structures related to synaptic plasticity in the adult nervous system. NRN1 functions as a molecular mediator of neurite outgrowth, neuronal survival, and synaptic maturation.

### Product Info

|                            |   |
|----------------------------|---|
| <b>Amount :</b>            | 20 µg   |
| <b>Purification :</b>      | Greater than 95.0% as determined by:(a) Analysis by RP-HPLC.(b) Analysis by SDS-PAGE.   |
| <b>Content :</b>           | The NRN1 was lyophilized from a 0.2µm filtered concentrated solution in 1xPBS, pH 7.4.  |
| <b>Storage condition :</b> | Lyophilized NRN1 although stable at room temperature for 3 weeks, should be stored desiccated below -18°C. Upon reconstitution NRN1 should be stored at 4°C between 2-7 days and for future use below -18°C. For long term storage it is recommended to add a carrier protein (0.1% HSA or BSA). Please prevent freeze-thaw cycles. |
| <b>Amino Acid :</b>        | AGKCDAVFKG FSDCLLKLGD SMANYPQGLD DKTNIKTVCT YWEDFHSTV TALTDCEGA<br>KDMWDKLRKE SKNLNIQGSF FELCGSGN.  |

### Application Note

It is recommended to reconstitute the lyophilized NRN1 in sterile 18M-cm H<sub>2</sub>O not less than 100µg/ml, which can then be further diluted to other aqueous solutions. The ED<sub>50</sub> as determined by a cell proliferation assay using rat C6 cells is less than 25ng/ml, corresponding to a specific activity of > 4.0 × 10<sup>4</sup> IU/mg.
