## 36-1137: Monoclonal Antibody to VEGF-R1 / FLT-1(Clone: FLT1/659)(Discontinued)

Clonality: Monoclonal Clone Name: FLT1/659 Application: FACS.IF Reactivity: Human Gene: FLT1 Gene ID: 2321 **Uniprot ID:** P17948 Format: Purified

Alternative Name : FLT1,FLT,FRT,VEGFR1
Isotype : Mouse IgG1 Kappa

Immunogen Information: Recombinant human VEGF-R1 protein

## **Description**

Three cell membrane receptor tyrosine kinases, Flt-1 (also designated VEGF-R1), Flk-1 (also designated VEGF-R2) and Flt-4, putatively involved in the growth of endothelial cells, are characterized by the presence of seven immunoglobulin-like sequences in their extracellular domain. These receptors exhibit high degrees of sequence relatedness to each other as well as lesser degrees of relatedness to the class III receptors including CSF-1/Fms, PDGR, SLFR/Kit and Flt-3/Flk-2. Two members of this receptor class, Flt-1 and Flk-1, have been shown to represent high affinity receptors for vascular endothelial growth factors (VEGFs). On the basis of structural similarity to Flt-1 and Flk-1, it has been speculated that Flt-4 might represent a third receptor for either VEGF or a VEGF-related ligand.

## **Product Info**

**Amount :** 100 μg

**Purification:** Affinity Chromatography

Content: 100 μg in 500 μl PBS containing 0.05% BSA and 0.05% sodium azide. Sodium azide is highly

toxic.

Storage condition:

Storage condition:

Store the antibody at 4°C; stable for 6 months. For long-term storage; store at -20°C. Avoid

repeated freeze and thaw cycles.

## **Application Note**

Flow Cytometry (0.5-1µg/million cells in 0.1ml); Immunofluorescence (1-2µg/ml); Functional Studies (Order Ab without BSA & Azide); Optimal dilution for a specific application should be determined.
